

# ASSEMBLY AND MAINTENANCE INSTRUCTIONS

## Table Football

Art.Nr. 1359901

As delivery arrives on a pallet, check parts for damage caused in transit and inform forwarder immediately.

The overall weight of the pallet is 360 kg.

The content on the pallet consists of the pre-assembled table football, 4 feet of which 2 with metal straps, screws with dowels and 2 squared timbers for moving the table.

Photo 1: **NEVER** lift the kicker at the rods. Use the delivered squared timbers positioned underneath the game well and lift the kicker with 4 persons.

Photo 2: Lift one side with two persons using one of the delivered squared timbers. Screw the rubber buffers (with the pre-assembled metal straps for floor attachment) into the substructure. Adjust the height.

Photo 3: Fix the substructure to the ground using wood screws 8x60 with the dowels.

Photo 4: If necessary clean the rods only with benzine and use only **silicone spray** for good sliding.
